

## Pandemic Processing

During this Year of the Family, the Office for Marriage and Family Ministry has developed a tool designed to help you listen and accompany your people as we process the past year and a half.

This could be used as an icebreaker and discussion starter, or as a stand-alone interactive display.

Potential uses:

- A parish leader could set it up in the gathering area of the parish
- A teacher could use it in a classroom
- A catechist could use it with students
- A principal could use it during a staff meeting
- A youth or campus minister could use it at the beginning of a session on coping skills

The examples can be as detailed or personalized as your time and budget allows. We have downloadable templates designed for 11" x 17" paper, linked below.

1. Print your pandemic processing board (linked below):
  - [For Youth](#)
  - [For Parish](#)
  - [For Anyone](#)
2. Supply some Post It's & markers, and open up the discussion
3. Gather the Post It's for a closing prayer

If you would like the print-outs adjusted for your use, or need additional support, please contact [tyohman@dioceseofcleveland.org](mailto:tyohman@dioceseofcleveland.org).
